

INSULIN PUMP PACKAGES

An initial pump start/upgrade is usually covered under your private health insurance and is at no out of pocket cost. However, at AH Diabetes we recognise that starting a new approach to managing your diabetes can be daunting and people require different levels of support. We have several packages to choose from post pump start to ensure you are well supported and feel comfortable managing your new device.

FULL PACKAGE - \$300 (recommended)

INCLUDES

- 2 x follow up visits
- 1 month of phone and email support including out of hours care.
- Additional month's \$150/month.

BASIC PACKAGE - \$150

INCLUDES

- 1x follow up visit
- 1 week follow up via phone and email.

NO PACKAGE

- Follow up and support with referring physician/endocrinologist. Any additional visits to AH diabetes will be billed at a standard rate (\$65)
